GAP

150% Protection

Not all gap protection is the same

Since the very first auto insurance policy, many drivers have learned the hard way that a standard auto insurance policy may not provide all the financial protection they need.

Here's why: When the value of a vehicle is less than the balance of the loan, this is described as being "upside down" on the loan.

That difference – that **"GAP"** isn't covered by your regular insurance. But a special kind of protection called "GAP protection" may help to cover the difference.

NEGATIVE EQUITY PUTS BUYERS AT RISK

GAP protection is designed to help cover the difference between the fair market value of your vehicle at the time it's totaled and your outstanding loan balance. Here's an example using a typical auto loan:

AMOUNT YOU OWE ON YOUR LOAN:	\$20,000
VEHICLE BOOK VALUE AT THE TIME OF LOSS:	\$18,000
YOUR INSURANCE DEDUCTIBLE:	\$500
AMOUNT INSURANCE COMPANY PAYS:	\$17,500
THE "GAP"	\$2,500
